

Digital Devices Grant Program

Round 3 - Guidelines

Be Connected is an Australian government initiative committed to increasing the confidence, skills and online safety of older Australians. Be Connected aims to empower everyone to use the internet and everyday technology to thrive in our digital world. Good Things Foundation manages the Be Connected Network and Grants program.

About the Digital Devices Grant Program

The Digital Devices Grant program aims to combat social isolation for Australians aged 50+ by providing loan devices with data to socially isolated or disadvantaged older Australians who don't have a device of their own.

Grants are available to Be Connected Network Partners to purchase digital devices with data, to loan out to older Australians to improve their connection to the community and support them to continue their digital skills learning.

Grant amount and term

The total funds available for this program is \$200,000.

\$5,000 grants will be awarded to Network Partners to deliver their project between 1 September to 2021 and 31 March 2022.

Grant funding must be spent on loan devices by 30 September 2021 and distributed to the selected learners as soon as possible after purchase.

Eligibility - Who can apply?

Organisations who would like to apply for a Digital Devices grant must:

- Ensure devices are set up and ready to use prior to loaning them to learners - the device should have the sim installed, charged and ready for use. The Be Connected learning portal should be bookmarked along with any other apps or programs appropriate to the learner e.g. Zoom, Skype, govt apps etc.
- Outline how they will safely deliver the device to the learner
- Maintain an inventory log and record the details of each loan event
- Ensure the learner is aware of the [Device Usage Guidelines](#) and signs the [Devices Loan Agreement](#) prior to accepting the device
- Support learners use their loaned device by showing them how to switch the device on and guiding them through their first experience so they feel comfortable in using the device
- Show learners how to access the Be Connected learning program and support them continue their digital skills learning through [online tech sessions](#)
- Arrange the safe return of loaned devices at the end of each loan term and ensure appropriate and thorough cleaning of the device prior to loaning to another learner
- To ensure the protection of information and privacy, each device must undergo a full reset between loans. This will erase all saved data, account information, installed applications, photographs and emails
- Have a continuity plan for the use of devices after the grant term has ended - outline how having additional devices will build capacity in your Be Connected program e.g. allow you to host additional sessions to more people; be able to loan devices to learners to practice between classes; expand you reach through outreach sessions etc.
