

Community Engagement grant timetable

Be Connected
Every Australian online.

Good Things Foundation is delighted to offer Be Connected Network Partners who have received an Activation, Building Digital Skills or Capacity Building grant a new \$1,500 Community Engagement grant to host an event or activity that helps to promote their local Be Connected program.

By giving Network Partners opportunities to engage over 50's in their community, we aim to support the continued success of local Be Connected programs, reach more people in need of digital literacy support, and increase the number of registered learners on the Be Connected Learning Portal.
