

Session Plan: Google Lens

Delivery mode:

Face to face delivery

Session overview:

This session will provide learners with some practical tips to use google lens. It is designed to be a fun, motivational session that encourages them to do more online and with their device.

Learning objectives:

For learners to:

- Learn how to identify unknown objects, plants, pictures and translate using Google Lens
- Have fun understanding the benefits of technology and the internet

Suggested session length:

This session should run for approximately 1 hour. The facilitator to schedule breaks as required.

Resources:

- Tables set up with photos, menus in different languages, plants, “unidentifiable” objects, coins.
- Learners to BYO mobile devices (or borrow one for device library) and connect to the internet.

Suggested further learning:

Be Connected online learning modules that compliment this session:

- [Using apps](#)
- [Using your camera](#)
- [Online hobbies](#)

Session Plan:

Topic	Timing	Activity	Assessment	Resources
Introduction & welcome	10 mins	Facilitator to: <ul style="list-style-type: none"> • introduce themselves • confirm all learners are online • Confirm download google lens or location • discuss the learning objectives • discuss how the session will run <p>Activity 1 - Intro</p> <p>Learners introduce themselves and share 1 thing that they would like to know about. E.g. history of a building</p>	All learners engage in groups of 4 or 5	Notepad / pen Laptop / data projector Items for identification Printed instructions for each table Learners connect their devices to the internet
