

Extension activity: Scam or spam?

These emails are all based upon real scam and spam emails. Which of these emails do you think are spam, and which do you think are a scam? Are there any here which you would trust?

Scam: A scam email is one which is sent to defraud someone, intending to steal money or personal details, for example.

Spam: Usually harmless, spam email is a little bit like 'junk mail' or a nuisance phone call. They are usually used to sell or advertise something.

Hi Mary,
How are you? Here are some photos of our weekend at the beach.
See you soon,
Jane
